## NORBAR TORQUE TOOLS AT 'PRACTICAL WORLD', COLOGNE, GERMANY

From 9<sup>th</sup> to 12<sup>th</sup> March 2008, Norbar Torque Tools exhibited at the 'Practical World' exhibition in Cologne, one of the largest and most prestigious exhibitions for hand tools.

Norbar have been attending this exhibition for nearly 40 years but this year went with our biggest stand ever, reflecting our important position in the world hand tool industry. Representatives from Norbar's companies in the UK, USA and Australia were in attendance.

Practical World was used as the platform to launch our new torque wrench range, TruTorque. This range offers outstanding performance and value for money and was received with enthusiasm by the many people who saw it.

Practical World demonstrated that the torque tool industry now is more competitive than ever. But, with interest in and demand for Norbar's tools and instruments at unprecedented levels, Norbar are proving that there is still an important place for high quality British designed and manufactured products.
