SPECIAL PROJECT INFORMATION SHEET

Project Description	5R - P Type Industrial torque wrenches with special painting		
Date created	15 October 2014	Project Number	Q2980

## INTRODUCTION & APPLICATION

Commercial vehicle wheel nut torque tightening application.  
Customer requires visual confirmation that the correct torque is being applied for each vehicle type.

## SOLUTION

Range of 5R Industrial torque wrenches, each pre-set to a specific torque and with identifying body colour.  
Colours selected are easily distinguished by eye or video recording.  
The wrenches are stored on a tool shadow board to further aid correct usage.

## TECHNICAL SPECIFICATION / DATA HIGHLIGHTS

Eight pre-set torque values / unique colours were supplied, between 400 and 700 N.m.  
Please contact Norbar with your application requirements.
