SPECIAL PROJECT INFORMATION SHEET

Project Description	Transducer Lead - Rotary Transducer to Tool Controller 60244 / 54		
Date created	9 March 2012	Project Number	Q2473

INTRODUCTION & APPLICATION

Customer wants to monitor torque signals from a Norbar .LOG rotary transducer and has an existing Norbar # 60254 tool controller that incorporates a TTT instrument.

SOLUTION

Special 2 metre transducer lead with 10-way rotary transducer connector to 19-way tool controller connector.

TECHNICAL SPECIFICATION / DATA HIGHLIGHTS

The TTT instrument in customer's existing standard tool controller # 60254 is utilised for torque monitoring purposes.
