

Software Engineer

Norbar Torque Tools Ltd., the world leading torque tool manufacturer has a vacancy for an experienced individual to join our IT team.

This new role requires the execution of full life cycle software development from concept, to implementation to end user training.

In addition you will be required to produce specifications and determine operational feasibility together with the ability to write well designed, testable and efficient code.

You will have a degree level qualification or equivalent in Computer Science, Software Engineering or other relevant field with proven development experience in a Windows environment using SQL Server and C++ and web development with ASP.net.

You will have excellent IT and coding ability, excellent communication skills and the ability to work as part of a team to support the Company.

In return for a 38½ hour week we can offer a starting salary in the range £38,000 - £44,000 depending on skills and experience.

Norbar also offer a non-guaranteed profit related bonus, contributory pension scheme, life assurance, an award winning restaurant plus other lifestyle benefits.

Closing date for applications: Tuesday 25 April 2017

We reserve the right to interview and appoint before the closing date

For an application form please contact Beverley Fuller, Human Resources Assistant, Norbar Torque Tools Ltd, Wildmere Road, Banbury, Oxfordshire OX16 3JU, Telephone 01295 753644.

Alternatively you can download an application form at www.norbar.com. CVs will not be accepted without a completed application form.
